PROJECTS

CLICK-Camera Rental Website

- **Front End:** HTML, CSS, Bootstrap, Javascript
- **Back End:** Python, Django, MySQL
- **Description:** Developed a comprehensive platform to streamline the process of renting and purchasing cameras. It caters to camera enthusiasts looking to rent high-quality equipment and individuals interested in buying cameras for personal or professional use.

BIOTECH- Diagnostic lab appointment system

- **Front End:** HTML, CSS, Bootstrap, Javascript
- **Back End:** PHP, MySQL
- **Description:** Created a diagnostic lab appointment website to simplify the scheduling and management of lab test appointments. The platform offers a convenient way for patients to book lab tests online and for administrators to manage appointments efficiently.

ACTIVITIES

- Led a team of organizers to plan and execute an engaging coding competition at college tech fest Hestia
- Participated actively and achieved commendable results in numerous IT quizzes at both college and school levels, showcasing proficiency and dedication.
- Served as a Senior Cadet in the National Cadet Corps (NCC) during my school years, demonstrating leadership and dedication in various activities.
